# Principal's Message

Ever since its establishment in 1974, Ho Fung College has been prestigious in Hong Kong, characterized by the wide range of learning opportunities provided to students for their whole person development. Over the years, our school has been dedicated to developing students' sheer passion and dedication for society and broadening their exposure in a culturally diverse and rich environment.

Our academic results are always a testament to students' hard work and dedication, as well as the high level of commitment of our staff. This year, our students once again reaped impressive results in the HKDSE with remarkable results of 92.7%, in the basic entrance requirement for admission to publicly funded undergraduate programmes (33222). A special mention must be given to our JUPAS offers (main round), which hit a record high of 93.52%. The dedication of our staff is vital for the student's success.

Frankly speaking, I feel privileged to lead such an exciting and vibrant school, which offers great opportunities for the young people. It is also our goal to make each, and every student succeed and offer them the best possible opportunities to become confident and thoughtful people who are prepared for any future challenges, in this exciting and increasingly globalised world.

The COVID-19 epidemic has kept students home for many months and they have now returned to school for half-day classes. It really has a profound effect on all of us in Hong Kong and around the world. I remember some students saying, 'for the first time I'm dying to go back to school!' Undoubtedly it drove me and all teachers in Ho Fung College to work hard to nurture our students to pursue their dreams. Fortunately, we are now keeping this pandemic under control. All lessons and activities are gradually resuming. It is my sincere hope that our students are able to experience adventure, excitement and relaxation after this epidemic period. The ability to refresh and explore is critical for students and their families to embrace a productive and successful learning experience.

I would also like to express my gratitude to all the teachers at Ho Fung College. Without their dedication, our education would not have been so successful. I also believe that many of our students would agree with the well-known '3A's' – Able to learn, Able to do and Able to engage, seemingly becoming our mission to work hard to nurture our students to be the future pillars of our society.

# English Learning Environment

Here at Ho Fung College we have been exploring every opportunity to create a stimulating English environment that prepares students for the future.

## S2 & S4 English drama education

Biweekly English drama courses, part of the English Language curriculum and aesthetic development curriculum we offer to S2 and S4 students respectively, allow an avenue to celebrate the richness and depth of verbal and facial expressions in rehearsals in classrooms and performances on stage.

School events, ranging from morning assemblies, swimming gala to opening and closing ceremonies, are prime examples of the seamless bilingual education we strive to provide for students.

## S5 Interview workshop

Alumni from various degree programmes served as panelists in the workshop, guiding their juniors in actualizing their dream of being admitted to their target schools.

## Integrating debating into our S1 and S4 curricula

Embroiled in the verbal war in and outside the classroom, every student gets a taste of debating: building compelling arguments, constructing vigorous rebuttals and developing persuasive skills.

# Aesthetic Development

Aesthetic development can foster students' life-long interest and cultivate positive values and attitudes through appreciating, creating, performing and reflecting. It also aims at providing students rich and meaningful learning experience which leads to a healthy life and whole-person development.
