Criteria for Allocation of S4 Elective Subjects (2025 -2026)

“Academic Performance” **AND** “Students’ Preference”

Maximum quota (including repeaters) for each X1 elective subject is 33 (WITHOUT feasible allowance)

The total number is subject to change depending on the total number of students in the form including repeaters

Reference quota (including repeaters) for each X2 and X3 is 27 with feasible allowance of at most 3

The total number is subject to change depending on the total number of students in the form including repeaters

- Popular X2 and X3 subjects may be allocated to students having high priority on the subjects AND high ranking in the subjects (top 50%) up to the ceiling of 30.

Prioritizing Bio can increase the chance of getting it even if the subject rank is bottom 50%.

Advices

Advices

The most important factors to improve successful rate of your subject selection:

Annual rank = Average score = Scores from ALL subjects

including:

- ✓ subjects you are not planning to take in senior forms
- ✓ other subjects: PTH, moral, music, PE, L&S

Advices

Except for M2 + X1 PHY class (4D), you CANNOT choose which class you are going to study in S4

In case there are two options for a particular subject combination

E.g. ECON,CHEM, BIO vs BIO, ECON,CHEM

Students will be allocated alternatively

Advices

For “high” achievers:

Do NOT make incompatible choices in first 3 preferred subjects, unless you

Examples:

~~[ICT, Hist, C. Lit]~~, ~~[Geog/Chis]~~ or ~~[ICT, Clit, Chem ← risky]~~...

X1	BAFS	ECON	BIO	PHYS	
X2	CHEM	PHYS	ECON	CHIST	GEOG
X3	BIO	CHEM	ICT	CLIT	HIST

Advices

For students in lower positions:

1. Prioritize your most desired subject to the **top priority (Preference 1)**.
2. Work hard to achieve the annual ranking as high as possible.

FAQ

Q: I got **very high score in subject X**. Does this increase my chance of getting subject X in the streaming process??

A: Yes AND No

Yes: This improves your **average score** and hence **annual ranking**.

No: Improvement by **1 mark in physics = 1 mark in chemistry = 1 mark in geography** in terms of annual ranking

FAQ

Q: I got **very high score in subject X**. Does this increase my chance of getting subject X in the streaming process??

A: Yes AND No

Yes: This improves your **subject ranking**. **Top 50%** or **bottom 50%** determines the availability of vacancy in **feasible allowance**.

No: At the same batch of annual ranking, subject ranks at 10 or 20 do not make a difference.
